EDUCATION

Stanford University

Stanford, CA

PhD in Computer Science, Artificial Intelligence. Advisor: Monroe Kennedy, Jeannette Bohg

Sep 2023 – present

University of Colorado Boulder

Boulder, CO

Bachelor of Science in Computer Science, Chinese Minor, 4.00 GPA

Aug. 2017 – May 2021

EXPERIENCE

Robotics/AI PhD Researcher, ARMLab - Stanford University

September 2023 – present

ARMLab, Advised by Monroe Kennedy and (soon) Jeannette Bohg

Stanford, CA

- PhD researcher in the Assistive Robotics and Manipulation Lab conducting research on dexterous robot manipulation.
- Building on top of the DenseTact sensor for perception and autonomy.
- Performing research on EEG-assisted robot manipulator control in Human-Robot Interaction.

Software Engineer - Customer Experience Platform (CXP)

September 2021 – August 2023

Microsoft

Redmond, WA

- Engineered AI-based solutions to improve the customer journey experience.
- Designed, developed, and deployed the consent for channel optimization feature for CXP.
- Developed Holdout for A/B test experimentation.

Undergraduate Researcher - CU Boulder SBS Lab

January 2018 – present

Sustainable Buildings and Systems Lab, Advised by Wangda Zuo

Boulder, CO

- Developed an automatic energy building simulation pipeline for testing energy outputs of different building models in different climate zones.
- Devised multiple methods of building energy prediction with Generative Adversarial Networks.
- Core contributor of an open source release of 500+ EnergyPlus building models, supported by researchers at labs including NREL and Oak Ridge National Lab, as the culmination of a 4+ year research project.

Undergraduate Researcher - HIRO Group

January 2020 – September 2021

HIRO (Human Interaction and Robotics Group) Group, Advised by Alessandro Roncone

Boulder, CO

- Devised a novel kinematic calibration algorithm to estimate the pose of a novel sensor unit on a robot manipulator. Validated on a real robot control example.
- Proposed a framework for bridging the gap between avoidance and contact, informed by onboard sensors for collaborative robotics, funded by a university research grant.
- Constructed an effective method for probabilistic fusion of external depth data and onboard proximity data to reduce occlusions in a robot's nearby space.

Software Engineer Intern - Journey Optimization using RL

May 2020 – August 2020

Microsoft, Customer Experience Platform (CXP)

Remote - Broomfield, CO

- Deployed a real-time analytics service for retrieving customer data.
- Designed and developed a feature from scratch called journey optimization, which intelligently guides a customer through the "customer journey", using reinforcement learning.

CTO and Co-Founder - Udana Systems

February 2018 – May 2020

Udana Systems

Boulder, CO

- Co-Founded company targeted towards drone delivery for small to medium sized businesses.
- Designed and developed robotics tech stack, using ROS, MavROS, Gazebo, PyTorch, and more.
- Developed machine learning pipeline for computer vision based models.

Software Engineer Intern - Global Search

May 2019 – July 2019

Microsoft, Dynamics 365 for Talent

Redmond, WA

- Designed and developed the Global Search feature for Microsoft Dynamics 365 for Talent.
- Worked with .NET, Angular, and XML in order to successfully deploy an end-to-end feature.

AWARDS

- Microsoft Special Stock Award** July 2023
- The most prestigious bonus given to employees at Microsoft. Only a few individuals were nominated out of the 200+ employees in my organization.
- RSS Inclusion Fellow** June 2021
- Accepted as an RSS (Robotics: Science and Systems) Inclusion Fellow, an expenses-paid program for upcoming robotics researchers attending RSS.
- Chancellor's Recognition Award** May 2021
- An award given to students that maintain a 4.0 GPA throughout all of college.
- Active Learning Award** April 2021
- Award given to outstanding students in service, professional, and research experiences.
- College of Arts and Sciences: Class of 2021 Amazing Student** April 2021
- For my minor in Chinese, I received an outstanding student award for the Class of 2021 in the College of Arts of Arts and Sciences (1 of 30 out of 4500+ students).
- College of Engineering Research Award** April 2021
- Only one other CS student from CU has received this award in its 20+ year history.
- CRA Outstanding Undergraduate Researchers 2021 – Honorable Mention** December 2020
- The most prestigious award for CS undergraduate researchers in North America.
- UROP Research Grant: Null Space Control for Collaborative Robotics** August 2020 – August 2021
- Received \$1500 research grant from CU Boulder's Undergraduate Research Opportunities Program (UROP) to perform research on null space control.
- Sewall Scholar** August 2017 – May 2021
- The top merit scholarship at CU Boulder.
- Engineering Merit Scholarship** August 2017 – May 2021
- Received based on high school academic performance.
- BOLD Scholarship** August 2017 – May 2021
- Received diversity scholarship based on high school achievement.
- National Merit Scholar** August 2017
- Selected to receive National Merit Scholarship on basis of outstanding high school achievement.
 - Given to <1% of high school seniors in the US.

SERVICE/LEADERSHIP

Microsoft BAP Early-in-Career

2023

- One of the founding members of a newly revamped Early-in-Career group.
- Leader of the Dynamics 365 Early-in-Career group
- Planned events, including single-handedly starting a AMA with the Corporate Vice President of the org.

HackCU

August 2018 – May 2021

- Led HackCU's tech team, organizing the largest hackathon in the Rocky Mountain region.
- Managed whole tech stack during 500+ person hackathon.
- Developed hacker sites and APIs accessed by thousands of people across the nation and globe.
- Handled 1000+ hacker applications.

Slingshot Mentor and Founding Member

June 2020 – September 2021

- Served as a founding member for students from top high schools interested in CS at Slingshot, a **Techstars-backed startup** co-founded by students from top tech companies.
- Organized learning sessions about robotics, research, and machine learning for high school students.
- Onboarded startups out of Y-Combinator, Techstars, Berkeley, Stanford, and more.

Discrete Structures Tutor

January 2019 – May 2019

- Mentored student in discrete structures.
- Set homework and test-prep deadlines, and prepared practice problems.

SASE (Society of Asian Scientists and Engineers) Leadership

January 2018 – May 2018

- Served as Co-Marketing Director and managed social media pages.

MEMBERSHIP

Microsoft BAP EIC Group	March 2022– August 2023
Colorado Data Science Team	August 2019 – December 2020
SHPE (Society of Hispanic Professional Engineers)	August 2019 – May 2021
SASE (Society of Asian Scientists and Engineers)	August 2017 – August 2019

INVITED TALKS

HackCU Workshop Invited Speaker: A Gentler Introduction to Robotics	March 2022
<ul style="list-style-type: none">Invited to conduct a workshop on how to get started with algorithm robotics at HackCU.	
Invited Speaker at the PhD Forum: 4th Workshop on Proximity Perception in Robotics	August 2021
<ul style="list-style-type: none">Only undergraduate invited to speak at the forum.	
Slingshot Interview Series: Getting Involved in Robotics	August 2021
<ul style="list-style-type: none">Invited by Techstars-backed startup to be interviewed on my experience with robotics, how I improved, and what others can learn from me.	

REVIEWER

IEEE Robotics and Automation Letters (RA-L)	2023
IEEE International Conference on Robotics and Automation (ICRA)	2023
IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)	2022
